PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building responsive web applications using React.js, Node.js, Express.js, MySQL, and REST APIs. Skilled in developing scalable frontend and backend solutions, database management, and cloud fundamentals. Strong foundation in Data Structures & Algorithms, problem-solving, and software development best practices. Passionate about creating user-friendly applications and continuously learning new technologies.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), Python, C, Data Structures & Algorithms (DSA)
Front-End: React.js, HTML5, CSS3, DOM Manipulation, Responsive Web Design
Back-End & DB: Node.js, Express.js, RESTful APIs, MySQL, SQL Query Optimization
Cloud & Tools: Amazon Web Services (AWS EC2, S3), Git, GitHub, VS Code, Postman
Core ECE: Circuit Design & Analysis, RF Systems, Embedded Systems, PCB Design, Arduino IDE, MATLAB
Soft Skills: Teamwork, Critical Thinking, Adaptability, Problem-Solving, Time Management

PROJECTS & TECHNICAL EXPERIENCE

Full-Stack E-Commerce Website

React.js, Node.js, Express.js, MySQL, AWS S3/EC2

- Built a complete e-commerce platform from scratch featuring secure JWT user login, product cataloging, a working shopping cart, and checkout system.
- Created a clean, fully responsive user interface using React.js, making sure data flows smoothly without slowing down the browser.
- Wrote clean RESTful APIs using Node.js and Express.js to handle user data, secure authentication, and specific category filters.
- Designed relational database tables in MySQL and wrote optimized queries to handle data storage accurately and quickly.
- Hosted the web application servers on AWS EC2 and used Amazon S3 buckets to store and load product images reliably.

Weather Dashboard

React.js, JavaScript (ES6), HTML5, CSS3, REST API Integration

- Connected the OpenWeatherMap API using JavaScript Fetch to fetch live, real-time weather details for any location instantly.
- Built an interactive interface using CSS3 and React hooks that automatically changes animations based on weather conditions (like rain, snow, or clear days).

Browser-Based Code Editor

React.js, HTML5, CSS3, JavaScript, Client-Side Rendering

- Created a web-based code editor where users can write code and instantly test/run frontend scripts locally using secure sandboxed iframes.
- Added helpful user features like easy theme switching (dark/light mode) and a button to instantly download written scripts.

RF Transmission Drone

Embedded Systems, KK 2.1.5 Controller, RF Wireless

- Assembled and calibrated a custom radio-frequency controlled aerial drone using a KK 2.1.5 flight controller board.
- Worked on linking hardware components and fixing circuit connection bugs to make sure signal transmissions stayed stable during test flights.

EDUCATION

B.Tech in Electronics & Communication Engineering

Pranveer Singh Institute of Technology, Kanpur

2023 – 2027

CGPA: 7.1 / 10

Intermediate (Class XII)

Shri Guru Ram Rai Public School, HarDOI

2022 – 2023

Percentage: 72.0%

High School (Class X)

Shri Guru Ram Rai Public School, HarDOI

2020 – 2021

Percentage: 79.4%

CERTIFICATIONS & ACHIEVEMENTS

- Ranked AIR 347** nationwide in the CodeQuezt Coding Challenge hosted by Naukri Campus.
- Finalist** at TechExpo 2025, PSIT Kanpur; presented our technical research paper at the EACE-2025 International Conference.
- Cloud & AI:** Oracle Certified: Generative AI Design | NVIDIA: Getting Started with AI on Jetson Nano.
- Courses Completed:** Infosys Springboard (Python) | Udemy (Full Stack Web Dev & C) | Simplilearn (VLSI & PCB Design).
